Notice to Residents in the Quail Ridge & Converse Hills Subdivisions

Repaving Work to Start Soon

This notice is to inform you that the City of Converse Public Works Department and Lone Star Paving will be in the Quail Ridge & Converse Hills neighborhood for the next few weeks to complete much needed street resurfacing and repaving work. This project is related to the 2015 City of Converse Bond issue that the voters approved in the November 2015 General Election.

Street repaving crews will be doing a mill and asphalt overlay procedure that requires the use of heavy machinery and materials so it is essential that your personal vehicle be removed off the street. When you see orange and black signs that say **REMOVE VEHICLES FROM CURB**--this is **warning** that the paving work will be done on your street on that particular day. **Any vehicles that are not moved will be towed.** Also, please **Do not water your lawn** when the orange & black signs are on your street. Moisture has an adverse impact on the base material and affects the structure of the pavement work.

After the completion of the typical work day by the paving crew, your street will be opened for vehicle traffic and you will have access to your home. We will try to keep disruptions to a minimum however, please know that there will be detours and inconveniences until the work is complete. Our apologies in advance for disruptions but we believe you will be very happy with the road work once it is complete.

Quail Ridge and Converse Hills Subdivision

Notice to residents: Here is the list of the streets that will be repaved. The streets shown in red on the map behind are to be repaved

Street	From	To
Janice	FM 1976	Dana
